Q1/202223/1	Blue Corridors in channel obstacle works - Rye 1	Within the Rye catchment of NYMNP, several barriers to the natural functioning of watercourses have been identified. These barriers restrict fish and other biota passage, as well as the transport of sediment. The NYMNP propose to commission the undertaking of easement works to three such barriers.	27/06/2022	05/07/2022		Conservation	24/05/2022
