

North York Moors National Park Authority Finance, Risk, Audit and Standards Committee

1 September 2020

Corporate Risk Register

1. Purpose of the Report

- 1.1 To seek Members' views on amendments that Officers wish to make to revise the Authority's 2020/21 Corporate Risk Register (CRR) for the November FRASC.

2. Background

- 2.1 The Authority's CRR was approved by Members at the Authority meeting in March 2020 (attached as **Appendix 1** for information). Since then there has been very considerable unforeseen change caused by COVID 19 and the national reaction to the pandemic which has had a significant knock-on effect to the Authority's activities.
- 2.2 The purpose of this report is to briefly outline Officers' views on the effect of the pandemic on the CRR prior to the register being fully updated for the November meeting of this Committee.

3. Corporate Risk Register 2020/21

- 3.1 The CRR was updated by the Chief Executive and Senior Leadership Team, prior to discussion and approval at February FRASC and subsequent approval by the full Authority.
- 3.2 While there were no Category 1 risks, the annual review increased the number of Category 2 risks from three to five. Officers' initial assessment of the effect of COVID 19 on these risks is as follows;
- **Climate Change Arrangements for the NPA** – no change. It is worth noting, however, that the successful implementation of home working provides an opportunity to significantly cut carbon emissions as result of commuting and, potentially, needing less office space in the medium to longer term.
 - **Financial Strategy** – the increase in the risk category from 3 to 2 was as a result of continued external financial uncertainty for 2020/21 and this was before the nature of the pandemic became apparent. While a revised budget has been put in place to take account of lost income, there are longer term concerns about income generated by the Authority, and the level of DEFRA grant settlement for 2021/22. It is expected that this risk level will remain at Category 2 this year, but will potentially increase to Category 1 next year.
 - **Marine and Terrestrial Wildlife and Biodiversity** – no change.
 - **Capacity and Resilience** – in 2019/20, this was reduced to a Category 2 risk. For this year, it was noted that careful management was still required to ensure that the Authority's ambitious work programme was delivered effectively. The effect of the pandemic has been to place considerable additional burden on several groups of staff to both deal with pandemic related work and deliver existing work

programmes. It is Officers' view that the risk level here has increased considerably this year and it should return to a Category 1 risk.

- **Minerals Development Pressure on the Park** – no change, although a close eye will need to be kept on planning developments at a national level.

3.3 Both **Health and Safety** and the **Woodsmith Mine - Implementation** were rated as Category 3 risks. There is no change to the latter, but the additional health and safety burdens as a result of the pandemic are considerable both in their scope and complexity as well as the repercussions if incorrect judgements are made. The additional workload to manage risk and the cost associated with this are not likely to disappear at any point during 2020/21 and so it is expected that this risk level will be raised to Category 2.

4. **Financial Implications**

4.1 There are no financial implications resulting directly from this report.

5. **Legal and Sustainability Implications**

5.1 There are no legal or sustainability implications resulting from this report.

6. **Recommendation**

6.1 That Members comment on Officers' proposals to amend the risk categories as outlined in part 3 of this report.

Phase 1 - Identification											
Risk Number	201/527	Risk Title	201/527 - Capacity and Resilience				Risk Owner	NYM CEO		Manager	NYM Mgt Team
Description	A lack of capacity and Resilience (including decision making and prioritisation) within the Authority to support the ambitious externally funded work programme and Business Plan aspirations. This results in the potential not to effectively and efficiently plan/work smarter and further National Park purposes, reducing service quality and impact on the health and wellbeing of staff.					Risk Group		Risk Type			
Phase 2 - Current Assessment											
Current Control Measures			Business Plan to 2021 is very clear about the Authority's priorities; SLT now firmly established; some resilience and capacity in key areas has been established (e.g finance and health and safety which are managed via external agreements). Use of reserves for matched funding is carefully planned, prioritised and regularly reported to Members. There is a developing understanding of the impact our changing budget is having on core areas of work; there is some active management of workload through the formal appraisal scheme.

▲	201/158 - Financial Strategy	Failure to implement the Medium Term Financial Strategy with sufficient resilience. Failure to continue to develop and implement the Income generation strategy and property strategy. Failure to detect and act upon fraudulent or corrupt activity. Such failures may result in limiting the ability to deliver statutory purposes and financial loss to the Authority. Increasing external uncertainty may become a more significant factor over the next 12 months.	NYM CEO	NYM Ho CS	H	M	H	M	H	1	12	30/04/2020	M	M	H	M	M	2
◀▶	201/488 - Marine and Terrestrial Wildlife and Biodiversity	Failure to increase marine and terrestrial wildlife and biodiversity in the Park resulting in a lesser variety of species, loss of reputation and financial impact.	NYM CEO	NYM DIR CONSERV	H	H	M	M	M	1	10	31/03/2020	M	H	M	L	L	2
◀▶	201/527 - Capacity and Resilience	A lack of capacity and Resilience (including decision making and prioritisation) within the Authority to support the ambitious externally funded work programme and Business Plan aspirations. This results in the potential not to effectively and efficiently plan/work smarter and further National Park purposes, reducing service quality and impact on the health and wellbeing of staff. ◀▶	201/464 - Woodsmith Mine - Implementation	Failure to deliver the terms of the Section 106 agreement and effectively manage the planning implementation aspects of the development including any subsequent permissions resulting in adverse national / international publicity and harm to the National Park and local residents. The authority:- a) fails to meet its obligations as a Planning Authority in discharging Planning Conditions; b) is unable to deliver the mitigating and compensatory elements of the Section 106 and this therefore causes harm to the Park; c) fails to plan sufficiently so that overall scale of dealing with the implementation of the development significantly disrupts the functioning of the rest of the organisation	NYM CEO	Mgt Team	L	H	H	H	H	3	6	31/03/2021	L	M	H	M	H	3
