

North York Moors National Park Authority

25 March 2019

Corporate Risk Register

1. Purpose of the Report

- 1.1 To seek Members' approval for the Authority's Corporate Risk Register (CRR) for 2019/20, subject to any amendments Members may wish to make.

2. Background

- 2.1 The Authority's CRR is a working document and is presented to Members for approval at the March Authority meeting each year. The scheme of delegation gives responsibility to review the Corporate Risk Register to FRASC and Members are updated quarterly.
- 2.2 The CRR includes a summary and a detailed document which outlines a series of actions to be taken to reduce the risk levels. It was updated in January by the Chief Executive and Senior Leadership Team in a process facilitated and advised by NYCC's Insurance and Risk Management Team. The resulting document was discussed at FRASC in February and is attached as **Appendix 1**.
- 2.3 The main changes to the CRR for 2018/19 were the addition of risks in relation to Core Capacity and Mineral Development Pressure on the Park with the Local plan and Minerals and Waster Plan risks being combined. These risks have been retained in the 2019/20 CRR.
- 2.4 After careful consideration, Officers are proposing that the risks in relation to the Profile of the Park and Young People (both Business Plan priorities) should be removed from the CRR as work has progressed strongly in these areas. Work in relation to Fraud and Corruption is well covered and supported by a recently approved policy, so this risk has been withdrawn as a separate item and reference to it included within the Financial Strategy Risk. The risk around the Woodsmith Mine including the associated agreements has been maintained at its current medium level in recognition of the many control measures in place; after some debate officers are recommending it is kept at the current level, though if the situation continues on its current trajectory it is expected that a reduction in risk level would be appropriate this year.
- 2.5 Officers considered several other risk areas (for example, the number and complexity of planning enforcement cases) but these were not felt to be of sufficient level of corporate risk to include on the CRR at this stage. At the February FRASC, a Member asked whether the CRR should attempt to capture some of the wider external factors that could affect the Authority's work, such as the outcome of the Glover Review or the effect of climate change on the National Park's wildlife. Officers intend considering this and having further discussions with Members at FRASC later in the year.

- 2.6 The Category 1 and 2 risks continue to be the same as in 2018/19 and are as follows;
- Capacity and Skills;
 - Wildlife Corridors; and
 - Minerals Development Pressure on the Park
- 2.7 While Officers are confident that the risk reduction factors in these 3 risks will be effective, the consequences should one of the risks come to fruition still remain significant. It is notable that the Capacity and Skills risk rating remains unchanged after the mitigation actions. While Officers believe that the position has eased slightly with regard to capacity for a number of reasons, there is still a tendency to not concentrate sufficient Officer resource on significant projects. This can lead to delays, resulting in a slower rate of achievement overall. The risk reduction factors seek to manage this more effectively. Officers will continue to discuss progress in managing the Category 1 and 2 risks, in particular, with Members at FRASC throughout the year.
- 2.8 The overall assessment of risk has been considered on the basis of no further change to the financial risk thresholds which take into account the Authority's improved financial position with regard to earned income, and to the position on reserves, current DEFRA Grant settlement and external funding.
- 2.9 **Appendix 1** also includes a summarised version of the Strategic Risk Register and includes details of the current risk rating and the impact that the proposed risk reduction actions are likely to have on the rating. It also details the current risk rating compared with the rating from November 2018.

3. **Financial Implications**

- 3.1 There are no financial implications resulting from this report.

4. **Legal and Sustainability Implications**

- 4.1 There are no legal or sustainability implications resulting from this report.

5. **Recommendation**

- 5.1 That Members approve the contents of this report and the **Appendices** making any amendments considered necessary.

Contact Officer:

Background documents to this report

1. FRASC Papers June, September and November 2018 and February 2019
2. NPA Paper March 2018

Phase 1 - Identification											
Risk Number	201/527	Risk Title	201/527 - Capacity and Skills			Risk Owner	NYM CEO		Manager	NYM Mgt Team	
Description	A lack of capacity and skills (including decision making and prioritisation) within the Authority to support the ambitious externally funded work programme and Business Plan aspirations. This results in the potential not to effectively and efficiently plan/work smarter and further National Park purposes, reducing service quality and impact on the health and wellbeing of staff. The call on reserves for match funding is significant and there is not sufficient money available for all projects. While overall funding is higher than it has ever been, spending on core functions remains lower than 2010 levels. Core staff across a range of functions are stretched beyond full capacity in delivering their core functions and supporting project delivery.				Risk Group			Risk Type			
Phase 2 - Current Assessment											
Current Control Measures			Business Plan to 2020 is very clear about the Authority's priorities; some resilience and capacity in key areas has been established (e.g finance and health and safety which are managed via external agreements). Use of reserves for matched funding is carefully planned, prioritised and regularly reported to Members. There is a developing understanding of the impact our changing budget is having on core areas of work; there is some active management of workload through the formal appraisal scheme.

◀▶	201/527 - Capacity and Skills	A lack of capacity and skills (including decision making and prioritisation) within the Authority to support the ambitious externally funded work programme and Business Plan aspirations. This results in the potential not to effectively and efficiently plan/work smarter and further National Park purposes, reducing service quality and impact on the health and wellbeing of staff. The call on reserves for match funding is significant and there is not sufficient money available for all projects. While overall funding is higher than it has ever been, spending on core functions remains lower than 2010 levels. Core staff across a range of functions are stretched beyond full capacity in delivering their core functions and supporting project delivery.	NYM CEO	NYM Mgt Team	H	H	M	H	M	1	9	1/04/2019	H	H	M	H	M	1
◀▶	201/488 - Wildlife Corridors (Business Plan Strategic Priority)	Failure to meet the ambition for wildlife corridors in the National Park resulting in animals and plants being restricted to their current range.	NYM CEO	NYM DIR CONSERV	H	H	M	M	M	1	7	31/03/2020	M	H	M	L	L	2
◀▶	201/493 - Minerals Development Pressure on the Park	Lack of capacity and resources both within the Authority and partner organisations to deal with the complex issues relating to the actual/potential extraction of minerals (conventional, shale gas and potash) resulting in an inability to effectively assess the environmental impact with the socio economic benefits, negative impact on other Authority work; potential for reputational damage both locally and nationally, legal action, negative financial impact and knock on effects to other work as resources transferred	NYM CEO	NYM DoP	M	H	H	M	H	2	11	30/06/2019	M	M	M	L	H	2
▲	201/158 - Financial Strategy	Failure to implement the Medium Term Financial Strategy with sufficient resilience. Failure to continue to develop and implement the Income generation strategy and property strategy. Failure to detect and act upon fraudulent or corrupt activity. Such failures may result in limiting the ability to deliver statutory purposes and financial loss to the Authority.	NYM CEO	NYM DIR CS	M	M	H	M	M	2	11	30/06/2019	M	M	M	M	M	4
◀▶	201/203 - Health and Safety	Failure to meet Health and Safety statutory requirements and ensure the appropriate culture is embedded in relation to staff, Members, volunteers, visitors and contractors resulting in possible loss of life/serious injuries, prosecution, claims, media attention, fines.	NYM CEO	NYM DIR CS	L	L	M	M	H	3	11	30/06/2019	L	L	M	M	H	3

	201/464 - Sirius Minerals Polyhalite Mine - Implementation	Failure to deliver the terms of the Section 106 agreement and effectively manage the planning implementation aspects of the development including any subsequent permissions resulting in adverse national / international publicity and harm to the National Park and local residents. The authority:- a) fails to meet its obligations as a Planning Authority in discharging Planning Conditions; b) is unable to deliver the mitigating and compensatory elements of the Section 106 and this therefore causes harm to the Park; c) fails to plan sufficiently so that overall scale of dealing with the implementation of the development significantly disrupts the functioning of the rest of the organisation	NYM CEO	Mgt Team	L	H	H	H	H	3	7	30/04/2019	L	M	H	M	H	3
	201/492 - Volunteer Strategy	Failure to fully deliver the ambitions of Volunteer Strategy resulting in inability to support staff, maintain and enhance the delivery of services and outcomes including public health and engagement	NYM CEO	NYM DIR CS	M	M	M	M	M	4	10	30/06/2019	L	L	L	L	L	5
	201/460 - Local Plan including Minerals and Waste Development Framework	Failure to achieve adoption of an up to date strategic planning document (Local Plan and Minerals and Waste Joint Plan) within a reasonable timescale (Jun 2019) resulting in challenges to planning decisions and gaps in policy causing difficulties in decision making, potential direct Government intervention and harm to National Park Purposes.	NYM CEO	NYM DoP	L	M	M	M	M	5	7	30/06/2019	L	L	M	L	M	5
