

Dear Mr Fellows

Thank you for your reply, regarding your two points I would confirm the following:

1. My objection is that the entire plan is not sound for the two reasons I set out in summary, and will detail to the inspector, and for this reason the plan should be rejected, and the Authority should start again.
2. I will be appearing at the Examination in Public or be represented by members of my team at the Examination.

Kind regards

██████████

Dear ██████████ – this is to acknowledge receipt of your response, as requested.

Please note: at this stage we are collecting comments to be sent on to the Planning Inspectorate to be addressed at the forthcoming examination in public. We've therefore advised that the standard form created by the Planning Inspectorate is used to make comments. It also includes guidance notes. It may help further inform the Inspector if you fill it in, however we will of course send your comments on as sent. The form is here:

https://www.northyorkmoors.org.uk/_data/assets/word_doc/0004/1573951/Response-Form-Pre-Submission..docx

There are however two particular pieces of information on the form the Inspector will need to know. We will inform the Inspector as follows unless you let us know otherwise :

1. That you are objecting to Strategic Policy M and Policy ENV8. (We are required to submit a list of comments made by policy).
2. That you do not wish to appear at the Examination in Public to present your case and instead rely upon your written representation.

If either of these are not your wishes please let me know.

Paul Fellows.

Subject: Submission Draft

Good Morning

I wish to submit an objection to the Submission Draft of the Plan required before 5pm on Friday 24th May.

My first objection is that the plan is not sound due to its failure to provide sufficient housing supply to meet the needs of the area, and contribute to the National requirement to address the shortage of both affordable housing and private housing.

My second objection is that the plan fails to provide for sufficient renewable energy in the form of wind power to contribute to the needs of the area and country and address climate change.

I wish to be able to have my concerns expressed to an inspector if these issues are not adequately addressed.

Please acknowledge receipt of this objection, by return.

Kind regards
