

Good morning Clair just a quick response re the Community Space at Battersby Junction Station. I assume there may be a drafting error on the plan The PCs response related to the picnic area and associated car park not just the few sq.m around the picnic table. Please can the plan be rectified to show all of the area bounded by the fence as the car park itself is a community asset providing for rail users/ walkers and avoiding cars parked indiscriminately around BJ and the station.

As for the School it is not PC owned but NYCC with possible CoE interest as a church school.

Please let me know if you need anything further.

Regards Terry
Chairman IGPC
