Guidance Notes

Prior Notification of Proposed Agricultural/Forestry Development –
Buildings, Roads, Excavation/Deposit of Waste Material From
Farm, Fish Tank

These notes have been written to help you with the submission of your notification.

Completed Notification Form with Signed and Dated Declaration

Please submit three copies ensuring that all parts of the form are completed and the declaration is signed and dated unless submitted via the Planning Portal.

Location Plan

This plan should be an up-to-date map at an identified scale (i.e. 1:1250 and 1:2500) with the north arrow labelled. The plan should identify sufficient roads and/or buildings on land adjoining the notification site to ensure that the exact location of the development site is clear. The plan should show the notification development site edged in red.

The following companies provide ordnance survey location plans at a charge, however you may wish to source your own company as there may be others available:

Notification Fee

Please see the Authority's Fee Sheet for further information.

Existing and Proposed Site Layout Plans

This is to allow neighbours to view the plans at a larger scale, identifying the position of buildings within the site in relation to their own properties. It can be difficult to assess the potential implications that the proposal might have at a smaller scale. The plan should be to scale i.e. 1:100, 1:200 or 1:500, with a north arrow labelled, showing the site in relation to existing buildings and site boundaries. It should indicate where existing features of the site are located including existing buildings (indicating proposed demolitions), trees (identifying any proposed felling), means of access and type of enclosure (wall, fence, hedges) and shall show adjacent properties/buildings.

Other Drawings Relevant to the Notification

Detailed drawings must be submitted to scale i.e. 1:100 or larger showing elevations, cross sections, floor plans and layouts of the proposed works together with existing and proposed ground levels and floor levels. Drawings shall include both existing and proposed details. It is a legal requirement that all measurements must be in metric and not imperial form. Any drawing submitted using solely imperial measurements will not be accepted and will be returned for metric conversion.

Checklist and Guidance Note for Prior Notification of Agricultural Development (Buildings, Roads, Excavation/Deposit of Waste Material From Farm, Fish Tank)

Important Information

The plans submitted as part of any notification considered by the Planning Committee will be scanned and possibly used in a slide presentation of the scheme. It is essential, therefore, that the plans are sufficiently clear so that the details of the proposal can be easily seen when projected onto the screen.

If the plans are not clear resulting from, for example, discoloured paper or particularly fine line drawings it may be difficult for Members of the Committee to appreciate fully the details of the scheme which could result in a delay in the determination of a notification if Members consider it appropriate to seek further clarification of aspects of the development proposed. Please try to ensure that submitted plans are clear and that they meet the requirements set out in this Guidance Note.

Supporting Agricultural Information Form (where appropriate)

The purpose of this form is to provide basic information on the farm system to help assess the need and appropriateness of an agricultural building within the National Park.
