## Minerals and Waste Joint Plan

Appendix 2
Safeguarded Sites

Three policies address the safeguarding of minerals and waste sites and the identification of associated buffer zones:

- Policy S04 Waste management facility safeguarding and associated buffer zone;
- Policy S05 Transport infrastructure safeguarding and associated buffer zone;
- Policy S06 Minerals ancillary infrastructure safeguarding and associated buffer zone.

This appendix provides maps of all the sites and infrastructure which are safeguarded under these policies.

The maps show the boundary of the site. These boundaries, along with the associated buffer zones where relevant, are shown on the Policies Map which has been produced in conjunction with the Minerals and Waste Joint Plan.
